I. Fa-frame Standard Series

- ▶ 单面 Single-side Series
- ▶ 双面 Double-side Series

The fa-frame are base on the combination of ingeniously designed frame and fabric prints. There are single sided and double sided fabric prints which are designed and developed by ourselves. Because of numerous of variety and high quality, they are very popular with our clients.

The frame size can be customized, mounting prints is very easy, even in display system as large as 3x6 meters, placing a print is only a matter of minutes.

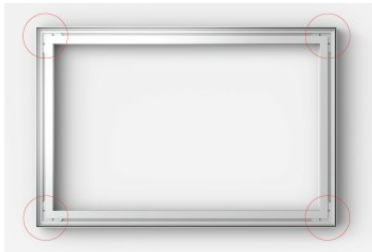

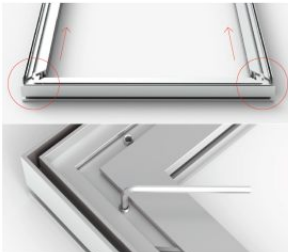

The prints are easy to replace, even without any install experience.

Part of fa-frame can be installed with LED light to be a light box, illuminated excellent. Compact and light –weight, easy to install, dismantle and transport it.

Assembling Frame

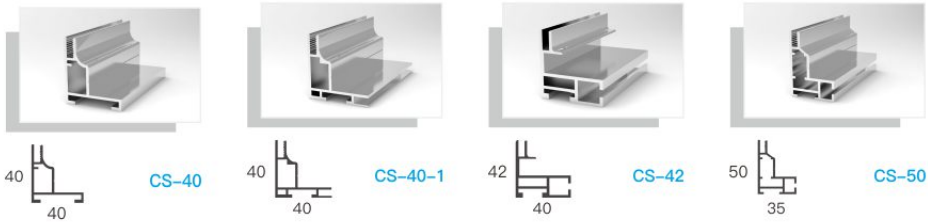

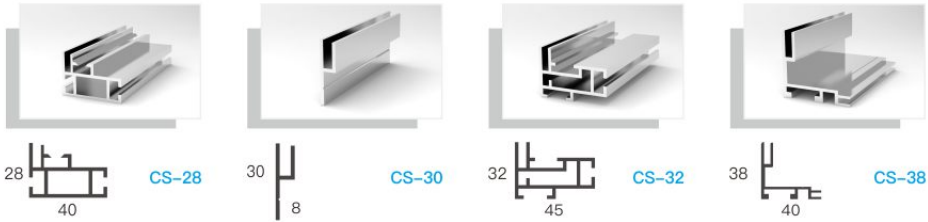

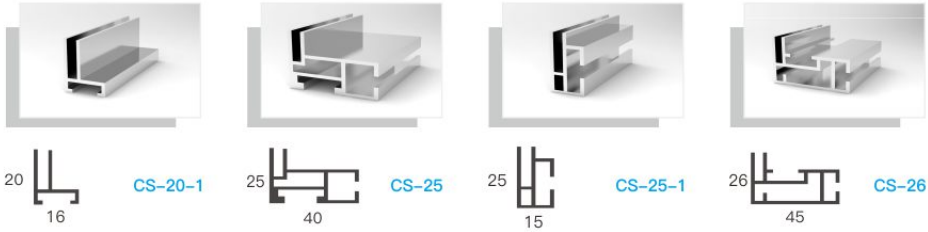

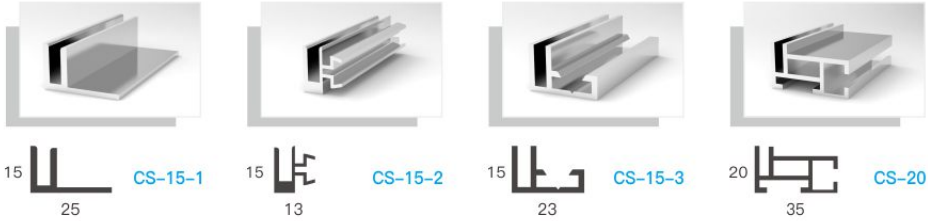

- 1 layout the frame components on a flat surface and ensure you have everything required before you start the assembly.
- 2 Insert corner brackets into the channels of the top and bottom legths of frame.
- 3 Slide top and side length together. Repeat on the opposite corner so the 3 lengths are connected.
- 4 Attach the remaining two corners at the same time.Ensure corner is aligned and the tighten screws using allen key.
- 5 Repeat step 4 on all remaining corners. Now that you are finished assembling you frame.
